

Gustavo H. Day, M.D.

INTERNAL MEDICINE

Dr. Gustavo H. Day has dedicated his career to providing compassionate and comprehensive care for his patients, with a strong focus on inpatient services. At his practice, the cornerstone of his approach is establishing trustful and caring relationships with his patients, ensuring they feel understood and supported. Dr. Day's commitment to preventive medicine and personalized care plans allows him to tailor treatments uniquely to each patient's needs, fostering a motivational and beneficial partnership.

With a career spanning 28 years at Medical City Dallas, Dr. Day has been a steadfast presence in the community, consistently striving to improve the quality of care. His dedication extends beyond his practice, as he also serves as the medical director for Skyn Lab, an innovative aesthetic med spa known for its advanced treatments and personalized care.

Dr. Day's devotion to his patients is matched by his commitment to his family. He and his wife, Mariana, have raised four sons, Matias, Juan Martin, Julian, and Santiago. This balance of professional excellence and personal dedication reflects Dr. Day's holistic approach to life and medicine, inspiring those around him to pursue their best selves.

Born in Detroit and raised in Argentina, Dr. Day earned his bachelor of science and medical degrees from Universidad Nacional de Cuyo. After completing his internship and residency at St. Barnabas Hospital in New York, he moved to Dallas in 1996, where he established his private practice. Dr. Day's unwavering commitment to his patients and community has made him a beloved and respected figure in Dallas healthcare.
