

PHILIP SLAUGHTER

Rachel Quinby-Graves, M.D. Carla Gustovich, M.D.

DERMATOLOGY

For two years, Drs. Rachel Quinby-Graves and Carla Gustovich have led the busy Frisco dermatology practice, Magnolia Dermatology, where patients feel at home and at ease the moment they arrive. Drs. Quinby-Graves and Gustovich intentionally created a small, boutique-style practice so they can get to know their patients and treat all their dermatology needs and skin concerns with the care and attention they deserve.

Healthy, beautiful, glowing skin is the goal for all patients here, and these board-certified dermatologists prescribe a comprehensive, individualized treatment plan for each patient based on their own needs and goals for their skin. They have practiced in the Dallas area for the past 20 years and specialize in the latest medical and aesthetic dermatology treatments, including the use of cutting-edge biologics for the treatment of skin conditions such as eczema and psoriasis.

Patients of Magnolia Dermatology are just as pleased with the results of their treatments as they are with the relationships they build with their physicians. “We care about our patients and enjoy getting to know them,” Dr. Gustovich says. “It’s an honor that so many of our patients followed us to this practice.” Dr. Quinby-Graves adds, “This is a warm, comfortable, and inviting practice where we can treat the whole family with a personal touch in a chic, elegant setting.”

Both doctors place an emphasis on the health of the skin and enjoy educating their patients about how this is the basis for healthy skin from the inside out. In addition to providing a wide variety of medical dermatology procedures, they also offer the latest in aesthetic dermatology, as they know how important it is for their patients to look as good as they feel. Magnolia Dermatology has a professional cosmetic injector/aesthetician to assist with patients’ aesthetic goals including Botox, fillers, and hydrafacials.
