

Key-Whitman Eye Center

OPHTHALMOLOGY

Key-Whitman Eye Center has been serving the North Texas area for more than 60 years, and Dr. Jeffrey Whitman is honored to be listed among *D Magazine's* Best Doctors in Dallas in the category of ophthalmology and LASIK for the 22nd year in a row. This year, fellow surgeon Faisal Haq, M.D. joins him debuting on the list.

Dr. Whitman is a recipient of the American Medical Association Physician's Recognition Award. He is a past president of the Outpatient Ophthalmic Surgery Society, American College of Eye Surgeons, and the Dallas Academy of Ophthalmology. Beginning practice in 1985, he is one of the most experienced cataract and refractive surgeons in North Texas. He lives in Dallas with his wife and enjoys spending time with his children and grandchildren. Dr. Haq is also board certified in general ophthalmology by the American Board of Ophthalmology, earned a fellowship in cornea and refractive surgery at the New York Eye and Ear Infirmary, and is specifically board certified in LASIK and cataract surgery by the American Board of Eye Surgery. He joined Key-Whitman in 2006 and lives in Dallas with his wife and two children.

Under the direction of Dr. Whitman, the Key-Whitman team of highly experienced doctors performs a full range of progressive ophthalmic services in nine convenient locations throughout Dallas-Fort Worth. They are among few in the area specializing in laser-assisted cataract surgery and the use of high-tech lens replacements, such as the Light Adjustable Lens™, Synergy®, Vivuity™, PanOptix®, and Symfony®. These intraocular implants are designed to give a wider range of vision, including far, intermediate, or close-up vision. For patients wanting to reduce or eliminate the need for glasses and contacts, many solutions are available, including LASIK, PRK, the EVO ICL™, and the high-technology lens implants used in cataract surgery. Additional services include eye health exams; management of diabetes, glaucoma, and corneal disease; treatment of dry eye; and reconstructive and cosmetic eyelid surgery.
