

Alexandra Dresel, M.D., F.A.C.S.

GENERAL SURGERY

Dr. Alexandra Dresel is a board-certified general surgeon and a Fellow of the American College of Surgeons. Dr. Dresel's boutique-style practice enables her to devote ample time to patients, providing them and their families with detailed explanations of surgical options. Patients often request Dr. Dresel as their surgical specialist. Primary care physicians and other specialists refer their patients to her, confident in the quality of care they will receive. Her special interests include thyroid and parathyroid surgery. Dr. Dresel is one of the highest volume thyroid and parathyroid surgeons in Dallas. Whenever possible, she uses minimally invasive techniques for the removal of thyroid and parathyroid glands. She also performs gallbladder surgery, hernia surgery, removal of skin and soft tissue tumors, and skin cancer removal, including melanoma.
