

## **Deri Lewis, M.D.**

**SURGICAL ONCOLOGY, GENERAL SURGERY**

A highly skilled, board-certified surgeon and strong patient advocate, Dr. Deri Lewis focuses on disorders of the skin and soft tissue. Her expertise lies in the most current treatments for melanoma, and top dermatologists frequently refer their patients to her boutique-style practice. Committed to getting to know her patients, Dr. Lewis spends a great deal of time with each one, listening to concerns and customizing a treatment plan. She works closely with her respected colleagues to create a dermatologist/surgeon/oncologist team who works together to effectively battle the deadly cancer. In addition to treating melanoma, Dr. Lewis continues to provide scarless gallbladder surgery and advanced hernia repair using the most current robotic techniques, promoting faster recoveries and a quicker return to work and play.
