ENDODONTICS

Drs. Shira Ackerman, Karla Bishop, Mercedes Dominguez, and Joy Field all lead busy, patient-centered endodontic practices in the Dallas-Fort Worth area. Although they have separate practices, they have known each other personally and professionally for many years. In fact, they each completed their endodontic residencies at Baylor College of Dentistry. Through the years, they have consulted one another about challenging cases, shared their expertise, and pursued continuing education endeavors together. They share the same values in achieving exceptional therapeutic outcomes and consider it an honor to care for their patients' endodontic needs.

Dr. Ackerman and Dr. Field practice at Field Endodontics in Plano. Dr. Bishop practices at Highland Park Endodontics and Metroplex Endodontics in Duncanville. Dr. Dominguez practices at Las Colinas Endodontics.
