Baylor Scott & White Physical Medicine and Rehabilitation Physicians

PHYSICAL MEDICINE AND REHABILITATION

Physical medicine and rehabilitation is the specialty of medicine dedicated to enhancing and restoring function, ability, and quality of life to those with various physical impairments or disabilities.

Rita Hamilton, D.O., specializes in spinal cord injury medicine and serves as the chief medical officer of both Baylor Scott & White Institute for Rehabilitation and Physical Medicine and Rehabilitation of Baylor University Medical Center, Dallas. Also a dedicated educator, she serves as the program director for the physical medicine and rehabilitation residency at Baylor University Medical Center at Dallas, part of Baylor Scott & White Health.

Les Porter, M.D., is a founding member of Baylor Scott & White Physical Medicine and Rehabilitation Physicians. He has special interest in medically complex rehabilitation patients with an emphasis on transplant rehabilitation medicine. His focus is how rehabilitation has to be modified and adapted to optimize this unique patient population's recovery.

Randi Dubiel, D.O., has a passion for the care of patients with traumatic and acquired brain injuries in the inpatient rehabilitation setting. She serves as the medical director of traumatic brain injury services at Baylor Scott & White Institute for Rehabilitation. An active researcher in her field, she focuses on enhancing optimal outcomes in those with traumatic brain injuries.

Physicians are employees of HealthTexas Provider Network, a member of Baylor Scott & White Health.
