

Rebecca Chilvers M.D., F.A.C.O.G.

FERTILITY

Dr. Rebecca Chilvers is a double-board-certified fertility specialist, maintaining certifications in both obstetrics and gynecology and reproductive endocrinology and infertility. She cares for patients from throughout Dallas-Fort Worth at the Frisco location of Fertility Specialists of Texas. She becomes a trusted partner in her patients' care as she thoroughly educates them about all their options and compassionately guides them toward reaching their goal of becoming parents to a healthy baby.

"After obtaining a thorough history, we then discuss their options and how I can help them achieve a healthy pregnancy," Dr. Chilvers says. "I also help them consider their long-term reproductive goals in light of what we know after their evaluation, as most of my patients desire a sibling. My main objectives are a healthy, low-risk pregnancy, protecting the mother and setting up a healthy life for the child. For patients doing IVF, I aim for pregnancy with the first embryo transfer, and I credit our amazing lab for making that possible."

Dr. Chilvers became interested in reproductive medicine in college after studying hormones and the profound effect they can have on people. She also learned that she enjoyed surgery. "I have always liked to restore order," she says. "When I got to my rotation in reproductive endocrinology, I was able to combine my interests in cutting-edge technology, surgery, and being part of an always-improving field. Now that I have my own children and the experience of being a mother, my role as a fertility specialist means even more to me. I consider it an honor and a privilege to help people build their families."

Dr. Chilvers is considered a foremost expert in in vitro fertilization, preimplantation genetic testing, and fertility preservation via egg freezing. She has published in peer-reviewed journals and is a member of the American Society for Reproductive Medicine and the Society for Reproductive Endocrinology and Infertility. She is also a Fellow of the American College of Obstetrics and Gynecology. Dr. Chilvers has been named a Top Doctor by Castle Connolly, a Mom-Approved Doctor by *Dallas Child*, a *Texas Monthly* Super Doctor Rising Star, and a Best Doctor in Collin County by *D Magazine*.
